ABOUT US

From its humble beginnings in 1982, Integral Refrigeration Industries has grown from strength to strength as one of the leading providers of stainless steel water coolers in Kuwait. With decades of experience in providing high-quality products and exceptional customer support, our own brand “Eagle Coolers” has been recognized in diverse markets resulting in continuous growth and expansion of our customer base. Our strong reputation has been built on manufacturing several types of stainless steel water coolers in different sizes and capacities. Throughout the years, our business has acquired a wide-ranging portfolio of major clients primarily within government entities (i.e., Ministry of Defence, Ministry of Interior and Ministry of Health), both commercial and residential sectors, retails, mosques and schools.

Since the inception of Integral Refrigeration Industries, our core strategy remains the same - to provide innovative, real-world solutions and unparalleled service to our valuable customers. Through collaborative efforts and passion for excellence, we will continue to establish and maintain long-term relationships among our clients by having exceptional ability to think like them by working closely together to offer high-quality solutions in terms of competitive cost, service, delivery and value. True to its mission to be a customer-focused and goal-driven organization, Integral Refrigeration Industries will consistently invest in our people, systems and processes to guarantee that we have the capability to meet the requirements and expectations of each and every customer in line with international standards.

VISION

Our vision is to establish Integral Refrigeration Industries as one of the leading manufacturers of stainless steel water coolers in both local and international markets by delivering reliable products and world-class service through continuous expansion, innovation and long-term partnerships.

MISSION

At Integral Refrigeration Industries, our mission is to continuously provide a wide range of high-quality solutions, at the most competitive price, with a long-term plan to expand its distribution network and strengthen its position in the GCC and global market.
